

For Immediate Release

**SEI Awarded Annual
Outstanding Growth Award by ACG Western Michigan**

Grand Rapids, Michigan – March 3, 2011- ACG Western Michigan has selected Service Express, Inc. (SEI) as the 2011 recipient of their Outstanding Growth Award. The award honors a local company that demonstrates sustained growth in community involvement as well as demonstrated growth in sales, profitability and employment.

SEI is a leader in delivering customized service solutions for on-site data center maintenance, focusing on mainframe, midrange and Intel based servers. The company partners with mid to large companies in the manufacturing, education, health care, government and financial industries to meet their business and data center maintenance needs. With a proven service delivery program and exceptional customer service, SEI maintains a 98% customer retention rate. The SEI team has grown revenue an average of 20% annually in the past decade to more than \$32 million.

Each year the Outstanding Growth Award winner is asked to provide a brief presentation on the challenges faced – and strategies used – to build a track record of growth. This year's reception and presentation will be held on Tuesday, March 22, 2011, 5:00 p.m. at DeVos Place.

Past winners of this prestigious award include Wolverine World Wide, Inc., National Heritage Academies, Inc., Rockford Construction Company and Herman Miller Inc.

About Service Express, Inc.

SEI has more than 150 employees in nineteen offices and nine states, with 60 employees in West Michigan. SEI continues to bring its brand of service to new markets with the opening of its new Chattanooga, Tennessee office in 2010 and Springfield, Illinois and St. Louis, Missouri offices in 2011. SEI also plans to open new offices within the next five years in Alabama, Florida, Georgia, Iowa, Minnesota, Missouri, North Carolina and Tennessee.
